Statewide WIC Facts

- WIC served 48.2% of all infants born in Washington state
- WIC served 260,000 women and children
WIC provides nutritious foods, nutrition education, referrals and breastfeeding information.
- WIC contributed \$94.5 million to local economies
- WIC attracted families to preventive health services
In 2003, more than 19,400 calls to the Healthy Mothers, Healthy Babies statewide referral line were from families calling for WIC.² With this one call, they got help finding WIC and also received information about other preventive health services.
- WIC was a gateway to health-related services
Over 1.3 million times last year, WIC staff discussed these services with families and provided the information and support needed to access them successfully.
- WIC breastfeeding rate reached 83.2%³
Breastfeeding support and education are key parts of WIC because breastfed children have fewer infections and are less likely to develop chronic conditions like obesity and diabetes later in life.
